

Project Initialization and Planning Phase

Date	01 JULY 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am Researcher / Policymaker / Student analyzing country development.	I'm trying to Predict the Human Development Index (HDI) of a country.	But It is difficult to analyze multiple development indicators manually.	Because HDI depends on life expectancy, education, and GNI per capita, making calculations complex and time-consuming.	Which makes me feel Confident when I get accurate HDI prediction to understand development level and identify areas for improvement.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A policymaker, researcher, or student analyzing a country's development.	Predict the Human Development Index (HDI) and identify the country's level of development.	It is difficult to manually analyze multiple indicators such as life expectancy, education, and GNI together.	HDI depends on several socio-economic factors, making manual evaluation time-consuming and prone to errors.	Confused about the country's development status and uncertain about which areas need improvement.
