

Customer Journey Map

Date	1 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being – Human Development Index (HDI) Predictor
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	•Opens the HDI Predictor web app •Logs in or accesses the prediction page •Enters development indicators	•Reviews the entered values •Submits the prediction form •Waits for the ML model prediction	•Views the predicted HDI score •Checks the HDI category •Understands the development level
Touchpoint <i>What part of the service do they interact with?</i>	•Login page •Home page •HDI input form	•Predict button •Flask backend •Trained ML model	•Prediction result page •HDI score and category •Visual result display
Customer Thought <i>What is the customer thinking?</i>	•“What data should I enter?” •“Are my values correct?” •“Will this system be easy to use?”	•“How quickly will I get the result?” •“Is the prediction accurate?” •“Will the system process my data correctly?”	•“What does this HDI score mean?” •“Which HDI category does it belong to?” •“How can I understand the result easily?”

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Interested • Slightly uncertain	• Expectant • Focused • Hopeful	• Informed • Satisfied • Confident
Process Ownership <i>Who is in the lead on this?</i>	• Frontend Developer • UI/UX Designer • User	• Backend Developer • ML Developer • Flask Application	• Application System • Data Visualization Module • Project Team
Opportunities <i>How can we improve this stage?</i>	• Add sample input values • Provide clear field descriptions • Improve input validation	• Improve prediction speed • Enhance model accuracy • Add clear loading and error messages	• Explain the HDI category clearly • Add charts and comparisons • Allow users to save prediction history
